BATHROOM EXHAUST

Turn your bathroom into your sanctuary with the EGLO range of heating and ventilation products. From basic to high performance, choose the perfect model to keep your bathroom warm and inviting.

Sizing To Suit Your Room

When it comes to selecting between bathroom exhaust options, our models vary in exhaust motor & ducting outlet sizes to suit your application. This means that you can choose a model that suits the heating and extraction requirements depending on the size of your bathroom.

It is recommended to have 15 air changes per hours for bathrooms, and 10 air changes per hour for water closets. Based on this recommendation, the following table can act as a guide in deciding which bathroom 3-in-1 will work best for your project.

Sizes For All Rooms
