MOSAICS

Standing the test of time, mosaics have been used for centuries as a decorative art form and to this day their gorgeous and intricate designs are so versatile and can compliment any style and taste.

Helpful Tips

When choosing a mosaic feature it is important to consider the colour tones and what would best compliment your scheme. Contrasting your feature mosaic to your existing tiling is an effective method of highlighting your decorative area and ensuring it catches the eye.

Some designers take the subtle approach of blending or perfectly matching their mosaic tiles to their existing tiling. This achieves an enhanced detail that breaks up the room but doesn't introduce additional colours and instead creates a streamline, sophisticated simplicity.

Bathrooms and kitchens are perfect examples of common locations for mosaic tiles to be installed but not limited to. So, take the opportunity to venture outside of the norm and explore the endless options of decorating any space of the home to add a dash of colour, texture, personality and flare. Decorating with mosaics is very simple and can be cost effective way to embellish areas of the home and create a high-end look that could be easily overlooked when building or renovating.

AGADIR

From the natural imperfection of craftsmanship and the beauty of nature, Agadir is born, a series designed both to create traditionally inspired spaces and to design more eclectic environments. These tiles, suitable for interiors and exteriors, can be used as flooring and wall tiles. Agadir provides a vibrant and unshaded colour, on an irregular relief, to provide transgressive beauty and create spaces in which the decoration takes on absolute prominence.

Tahiti introduces a pool tile that draws inspiration from the stunning landscapes of the Pacific island. This range features an appearance reminiscent of Balinese stone, a popular trend in pool design. The natural beauty of the Tahiti island and its inspirational culture are joined with the white sand light and the turquoise waters of its beaches to create a new collection of tiles that invites you to immerse yourself in the ocean depths.

VALENCIA

A romantic and nostalgic collection, inspired by the beauty of Valencia. This collection is inspired by traditional hydraulic tiles, reinterpreted in a subtle pastel color scheme, where coral, blue or green bring us the beauty of the landscape of Albufera. The essence of Valencia can be found in the smooth, faded appearance of the pieces.
