

Empire Slim

— TAPWARE / SHOWERS / ACCESSORIES —

fienza®

Empire Slim

Discover the Range

Our new Empire Slim range embodies the essence of slimline design, characterised by soft curves and rounded edges that seamlessly integrate into any modern space.

The range includes an elegant selection of mixers, showers, spouts and accessories. We've also introduced Cold Start technology in our Empire Slim Basin Mixers, reducing energy consumption with every use.

Each piece is available in a variety of premium finishes: chrome, brushed nickel, brushed copper, urban brass and matte black, giving you the creative freedom to build your perfect space.

LEAD FREE FUTURE

New lead free tapware regulations come into effect in Australia in May 2026. With traditional brass containing a small amount of lead, Fienza has begun transitioning to lead free tapware in the interests of public health and commitment to a lead free future.

CERTIFIED

Our tapware and showers are WaterMark certified, in compliance with the Plumbing Code of Australia. Where required, products are tested for water efficiency and carry a WELS rating.

Finishes

TAPWARE / SHOWERS / ACCESSORIES

Electroplating

Electroplating involves applying a thin metal coating using electricity. The product is submerged into a solution containing metal ions, resulting in a vibrant polished chrome or a smooth, matte finish.

PVD

PVD (Physical Vapour Deposition) is an eco-friendly process where a thin layer of metal coats the tapware using a vacuum and vaporised metal particles. This method creates a highly durable surface in a variety of rich, coloured finishes.

BRUSHED COPPER

The earthy, opulent appearance of Brushed Copper instantly elevates the space. With its inviting warmth and luxurious sheen, Brushed Copper pairs well with wooden, stone and marble accents. A favourite for modern and traditional interiors, it complements neutral tones and muted green palettes.

Finishes

CHROME

A timeless, polished finish that instantly adds brightness and elegance to any space. Perfect for modern and traditional spaces, Chrome's stunning reflective finish complements bright whites, soft neutrals, or bold accents.

BRUSHED NICKEL

Subtle and soft, Brushed Nickel has increasingly become one of the most versatile tapware finishes. With a gentle metallic sheen and subtle warmth, it pairs well with most colour palettes, particularly cool tones, earthy spaces and natural materials.

URBAN BRASS

With an urban twist on the classic gold finish, Urban Brass instantly adds character and charm to the space. It is increasingly popular for vintage-inspired bathrooms, and enhances chic, modern spaces. Urban Brass works especially well with blues, greens, and muted beige tones.

MATTE BLACK

Bold and striking, Matte Black has become the popular choice for making a statement in a minimalist space. From contemporary styles to industrial designs, Matte Black is highly versatile and immediately draws attention, pairing well with exposed brick, concrete substrates and monochrome palettes.

Basin Mixers

FOR BENCHTOPS

Cold Start Technology

Energy efficient Cold Start technology only activates cold water from the default handle position. Unlike traditional mixers where hot water is activated even from the middle position, Cold Start only engages hot water when the handle is turned to the left, using energy only when needed.

General Information

Cleaning & Care

- Please use the basics when cleaning tapware.
- Wipe regularly using a microfibre cloth.
- For a deeper clean, mix warm water with a small amount of dish soap.
- Rinse thoroughly with clean water.
- Dry immediately after use. Mineral deposits can quickly build up if the tapware is left wet for too long.
- For limescale buildup, mix 50:50 white vinegar and warm water. Rinse and wipe immediately.
- We recommend using a microfibre cloth to gently buff the surface. Its finely packed weave traps grime more effectively than regular cloths and won't scratch polished or matte finishes.
- **DO NOT** use chemical cleaners or abrasive sponges.

Warranties

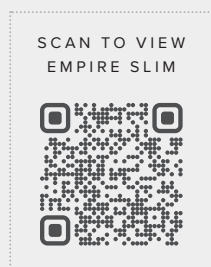

Enjoy peace of mind with a Lifetime Guarantee on Tapware & Shower structural components, including mixer cartridges. Finishes vary by product, including up to 10 years on Tapware, and 5 years on Bath Spouts, Showers and Accessories.
